Summer Recreational Program

## Do you love horses? Spend your summer at Windrush Farm!

### Program Overview

#### Basic riding skills

The structured riding program provides two riding lessons each day for beginner through advanced riders with certified instructors. Riders can use our horses or board their own horse for the week.

Students will be evaluated and split into two groups based on experience levels.

In lieu of a lesson, riders may choose a long excursion on the 35 acres of Windrush Farm woods and fields and through the surrounding 160 acres of conservation land.

#### Horse Management

Windrush offers a structured program that promotes fun and safety while teaching basic horsemanship skills through advanced techniques in horse management. This includes: how to catch, halter lead, groom and tack a horse, leg wrapping, biting, saddle fitting, and show grooming and preparation.

Students will participate in daily farm chores such as turn in and out, feeding, stall cleaning, tack cleaning and other aspects of daily horse care.

#### Fun Stuff

Riders will play games on horseback, go on scavenger hunts through our miles of wooded trails and enjoy our daily lecture series on topics of interest to them.

Students will show off skills learned during the week at a Friday demonstration and award ceremony for their families.
